Enhance your treatment plans for anxiety, depression, ADHD, OCD, bipolar disorder, sleep, pain, and stress with brain-changing mindfulness skills tailored to the problems your clients face each day.

Attend this workshop and get detailed guidance on the hows, whys, and whens of incorporating core and advanced mindfulness skills into your clinical practice. Build your client education skills and improve therapeutic engagement with clear explanations regarding the neurobiology behind mindfulness. Interactive demonstrations and step-by-step instruction on specific interventions and exercises will give you the tools you need to treat a variety of disorders and populations. And the opportunity to practice under the direction of our instructor will boost your confidence in using your new skills. Better still, you'll walk away with a four-step process that ties it all together, making what you've learned immediately relevant to your own work with clients.

Objectives

1. Motivate clients to engage in treatment with understandable psychoeducational explanations regarding the research and practices associated with mindfulness.

2. Formulate treatment plans for anxiety that include mindfulness techniques that can be used to regulate the client's arousal state.

3. Integrate mindfulness interventions into therapy that can help depressed clients manage negative thoughts and reduce the risk of relapse.
4. Articulate how mindfulness training can be used as an adjunctive therapy with evidence-based treatment to enhance attention in clients with attention deficit hyperactivity disorder (ADHD).

5. Communicate how mindfulness-based approaches can help clients observe internal reactions and establish how this information can be used in the treatment of posttraumatic stress symptoms.

6. Instruct clients with obsessive-compulsive disorder (OCD) on the utilization of mindfulness skills that can facilitate disengagement from repetitive thoughts.

Speaker

R. Brian Denton, Psy.D., Ph.D, is a licensed psychologist in Cleveland, Ohio. Dr. Denton completed his undergraduate work (B.A.) in psychology at Case Western Reserve University in Cleveland, OH, a Master's degree in Clinical and Counseling Psychology (M.A.) from Cleveland State University, and a Doctorate in Clinical Psychology (Psy.D.) from the School of Professional Psychology at Wright State University in Dayton, Ohio. Dr. Denton also received a Doctorate (Ph.D.) in Buddhist Studies from Buddha Dharma University.

Dr. Denton has studied the Eastern Wisdom traditions extensively over the past 20 years, having traveled to a variety of training centers and monastic institutes around the United States and overseas to study meditation practices and their application to human psychological functioning. He is a Zen Teacher and was given transmission as a Zen Master. He has lead mindfulness and meditation retreats, teaches independently, and utilizes his expertise in mindfulness within psychological treatment.

Dr. Denton has published on Mindfulness-Based treatment approaches as the lead author of the chapter "Clinical Uses of Mindfulness" in Innovations in Clinical Practice, and as third author of the book "Mindfulness in Clinical Practice", a primer of mindfulness-based treatment approaches. He is an experienced and sought after presenter on a wide range of topical areas, and in particular for trainings around Mindfulness, ACT, Inclusion/Diversity, and Sexuality.

Speaker Disclosure:
