Acceptance & Commitment Therapy Made Simple
ACT for PTSD, Anxiety, Depression & Personality Disorders

Are your current techniques just not working?
You've experienced the frustration; you have a client who seems to just not break through. You've tried your best, but the outcome is the same: he or she progresses for a while, then regresses again.

Acceptance and Commitment Therapy is the popular transdiagnostic approach that you can integrate into your practice to achieve positive therapeutic outcomes with difficult-to-treat clients.

Join ACT expert and presenter Daniel J. Moran, as he delivers an exercise- and intervention-heavy course that will give you the tools you need to more effectively treat clients with PTSD, anxiety, depression or personality disorders.

You'll learn how ACT weaves mindfulness strategies with cognitive-behavioral change strategies to revolutionize client outcomes, as well as discover a variety of ACT techniques for helping clients who are struggling to make difficult behavior changes due to the presence of painful thoughts, feelings and memories.

By shifting client focus to their own values, ACT sets clients up to embrace behavior change that is meaningful to them while simultaneously fostering skills that allow clients to more effectively handle impulsive actions based on current thoughts or emotions.

Sign up today, and Dr. Moran will guide you step-by-step through highly practical, evidence-based ACT skills that you can apply in your practice immediately!

Speaker

Daniel J. Moran, Ph.D., BCBA-D, is the former president of the Association for Contextual Behavioral Science (ACBS), the international ACT organization with over 8,000 members worldwide. He co-authored the first case conceptualization manual for Acceptance and Commitment Therapy entitled ACT in Practice (New Harbinger) and served on the first ACT training committee. He also recently published Committed Action in Practice (New Harbinger) and will be bringing the topic of that book to this workshop.

As a recognized ACT Trainer in the ACBS community, Dr. Moran has an engaging training style that has led him to be an invited keynote speaker for many events in the last decade. He has also been featured on The Oprah Winfrey Network, TLC and The Discovery Channel discussing the treatment of many clinical disorders. He has published several articles and book chapters, including publications with CBT pioneer Albert Ellis and ACT pioneer Steven Hayes.

Dr. Moran supervises therapists around the world to help them treat patients in their clinics. His passion is for applying the ACT principles in important areas outside of the clinic, such as the boardroom or construction sites. He established Pickslyde Consulting in order to bring mindfulness and value-directed commitment skills to the workplace to improve safety, innovation and leadership. Dr. Moran has utilized ACT in work implementations and clinical training sites on six continents and in all 50 of the United States.
